

P

DURBAN POISON

This pure sativa originates from the South African port city of Durban. It has gained popularity worldwide for its sweet smell and energetic, uplifting effects. Durban Poison is the perfect strain to help you stay productive through a busy day, when exploring the outdoors, or to lend a spark of creativity. Growers and concentrate enthusiasts will both enjoy the over-sized resin glands which make this strain a quality choice for concentrate extraction. The buds are round and chunky, and leave a thick coating of trichomes on almost all areas of the plant.

RED RUNTZ

Red Runtz is an evenly balanced hybrid strain (50% indica/50% sativa) created through crossing the classic Red Pop X Runtz strains. Tangy, soothing and potent all in one, Red Runtz is a great choice for any hybrid lover. This bud combines the best of both of its parent strains in the flavor department, with a sour yet sweet raspberry candy overtone accented by sugary fruits and a bouquet of fresh berries. The aroma is just as syrupy sweet, with a raspberry berry overtone accented by hints of tangy fruits and a touch of spice. The Red Runtz high isn't quite as vibrant, with effects that are best suited for a lazy evening when you need a little extra help to get to sleep.

BLUE CHEESE

Blue Cheese is an indica cross created by crossing a Blueberry male with an original U.K. Cheese (a Skunk #1 phenotype) female. The sweet and savory smells of berry and blue cheese combine to create a creamy, unique flavor reminiscent of the original Cheese. The heavy effects will help you feel relaxed at the end of the day and can provide relief for muscle spasms, pain, and stress.

CODE RED

Code Red is an indica dominant hybrid strain (70% indica/30% sativa) created through crossing the delicious Red Runtz X Scotty 2 Hotty strains. Named for its gorgeous appearance and amazing flavor, Code Red is the perfect choice for any indica lover. This bud has beautiful fluffy oversized pepper-shaped dark olive green nugs with vivid purple leaves, lots of thin redorange hairs and a coating of chunky, frosty white crystal trichomes. As you pull apart each red little nugget, aromas of spicy fruits and sour citrusy lemon are released, intensifying in sweetness as the nugs are burned away. The flavor is very similar, with a sweet fruity strawberry taste accented by hints of creamy lemon and sour citrus.

CHEESE

Cheese, also known as "Dinafem Cheese," is an indica-dominant hybrid marijuana strain from the U.K. named for its sharply sour aroma. Cheese has achieved widespread popularity for its unique flavor and consistent potency. With origins that stretch back to the late 1980s, Cheese is said to descend from a Skunk #I phenotype whose pungent aroma made it stand out. Breeders like Big Buddha Seeds later introduced Afghani indica genetics to increase Cheese's trichome production and yields. The resulting strain is now well-known for its relaxed, happy effects that gently ease you into a blissful state of mind.

ACE OF SPADES

Ace of Spades is a creation from TGA Subcool Seeds that takes advantage of the popular sweet and sour combination that never goes out of style. A crossbreed of Black Cherry Soda and Jack the Ripper, this strain has an earthy berry and citrus smell that carries over into the taste with distinctly lemony flavors. Ace of Spades plants grow fast and need a lot of space because they will get both bushy and tall. Flowering occurs at 8 weeks and they are generally large and heavy. These buds are pretty to look at with a range of colors that can include purples, blues, and pinks all coated in orange hairs.

WHITE WIDOW

White Widow is a hybrid weed strain made from a genetic cross between a Brazilian sativa landrace and a resin-heavy South Indian indica. This strain is 60% sativa and 40% indica. White Widow is one of the most famous strains worldwide, first bred in the Netherlands by Green House Seeds in the 1990s. Its buds are white with crystal resin, warning you of the potent effects to come. A powerful burst of euphoria and energy breaks through immediately, stimulating both conversation and creativity. White Widow is 15% THC, making this strain an ideal choice for moderate cannabis consumers. Leafly customers tell us White Widow effects include feeling energetic, talkative, and creative.

TWIZZLE DANCE

Twizzle Dance is a slightly indica dominant hybrid strain (60% indica/40% sativa) created through crossing the delicious Jigglers X Scotty 2 Hotty strains. A sweet bud with an even more delightful high, Twizzle Dance is perfect for any indica lover. This bud has a mouthwatering sweet yet spicy flowery fruity taste accented by hints of woody pine. The aroma follows the same profile, with a spicy flowery overtone accented by sweet fruits, spicy diesel and earthy woods. The Twizzle Dance high will have you up and dancing before dropping you off into a sleepy state.

CHEETAH PISS

A trifecta of quality strains from Growing Passion and Cookies Fam, Cheetah Piss crosses Lemonnade, Gelato 42, and London Poundcake 97. While the name is an homage to famous old school strain Cat Piss, there isn't much in common when it comes to the highs. As far as its terpene profile, Cheetah Piss is funky just like Cat Piss, reminding consumers of those strains with weird, uncommon qualities.

POP STAR

This unique variety is result of a cross between two very remarkable hybrids. On the one hand the famous Starfighter (Alien Tahoe OG x Lemon Alien Dawg), known for its explosive resin production and powerful effect. On the other hand Gary Poppins, a cross between Gary Payton and Red Runtz, equally potent and characterised by an exotic fruit refreshment aroma. Pop Star is composed of 80/20 Indica Sativa genetics, with a fairly compact growth and fast flowering. It is ready to harvest after about 8-9 weeks in indoor cannabis cultivation with an abundant yield of up to 650g per m2. Outdoors is ready to harvest in late September, with a yield of up to 1200g per plant.

SCOTTY 2 HOTTY

Scotty 2 Hotty is a blazing, indica-dominant hybrid strain made by crossing Biscotti with Rainbow Chip. The effects of Scotty 2 Hotty are believed to be relaxing and euphoric, with the same tightly-packed olive and fern green buds of its Cookies family parents. Reviewers on Leafly say Scotty 2 Hotty makes them feel focused, relaxed and quite hungry. Scotty 2 Hotty can test as high as 29% THC. The dominant terpene is caryophyllene, for a sweet but gassy aroma and flavor of vanilla and notes of diesel. Medical marijuana patients say they buy this strain for stress and moderate pain. The original breeder of Scotty 2 Hotty is Exotic Genetix.

DIRTY BIRD

Dirty Bird is a hybrid weed strain made from a genetic cross between Falcon 9 and Scotty2hotty. This strain is 50% sativa and 50% indica. Dirty Bird is known for its moderate THC content, averaging around 18-22%, making this strain an ideal choice for both beginners and experienced cannabis consumers. Bred by Exotic Genetix, Dirty Bird features myrcene as the dominant terpene. The average price of Dirty Bird typically ranges from \$10-\$15 per gram. We are still learning about Dirty Birds effects, flavors, and medical uses. If you've smoked, dabbed, or consumed Dirty Bird, please tell us about your experience by leaving a strain review.
